

STOVES, & C.

STILL AHEAD AND CAN'T BE BEAT!

BUCK'S PATENT COOKING STOVE.
THIS celebrated Cooking Stove has now been before the public seven years, and is still without a successful competitor, although it has been put to the severest test, and has been used in the theatres, New York and Albany, the first premium was awarded to it, also given all new Stoves at the end of week, to the best of our knowledge, in the city of Boston, and every one has been superseded. The oven is easily double the size of the ordinary Cooking Stoves in market, and is heated with the most perfect apparatus, so that it will take all sorts of cooking up perfectly as can be done in a level oven.

For the location of this stove, we respectfully refer to the following:
